THIS IS UNEVALUATED INFORMATION

1. There is a new airfield between the Tápé River and the railroad tracks at Tápészentmárton (J 00). The quasi-military Hungarian Aeronautical Society (MREK) has been using the field since July 1952.
2. There are two buildings at the field: a repairshop and a hangar 80 m. x 35 m. There are no concrete runways.
3. At the time of observation, during the latter part of August 1952, UT II (?) planes were seen. However it was learned that during July 1952, for a number of days, the field was utilized by personnel of the Russian and Hungarian Air Forces. On this occasion fighter planes (but no jets) landed and took off again from the field.
